Hello Folks,

I am attaching the 4/17 draft of the Oregon BOF testimony in Word format. Note that there were some edits after this point, and I had hard copy only of that version produced the afternoon of 4/21. I have scanned that to PDF and am attaching it as well. Finally, I am pasting the comments I actually made at the 4/22 meeting below in the body of this email. I'm also attaching a scanned copy of ODF's presentation at the 4/22 meeting.

4/22 Comments at BOF by Anthony Barber:

*Good morning Chair Imeson, Board Members, State Forester Decker. My name is Anthony Barber, and I am the Director of the U.S. Environmental Protection Agency's Oregon Operations Office. I'm also the executive lead for the EPA Region 10 Forest Team. That is a brand new role for me, and today primarily represents an opportunity for me to introduce myself to you in that capacity.*

*Also, while I'm here, I want to take the opportunity to share that we at EPA have been trying to keep aware of the work of ODF staff and the progress being made on their Riparian Rule Analysis Methods. We very much appreciate the level of effort ODF staff have put into their assessment.*

*I'm here today to listen to the presentation and Board discussion of the options for Riparian Rule Revision. The EPA is especially interested in the discussions of options being considered for the riparian management areas and the geographical scope for potential revisions.*

*While the EPA is not prepared to present fuller testimony to the Board today, we do plan to share our thoughts with the Board and ODF, perhaps at the June Board meeting, or sooner, as may be helpful.*

*Thank you.*

Anthony L. Barber, PE  
Director  
Oregon Operations Office  
US EPA Region 10  
805 SW Broadway, Suite 500
